Brand names	Pyranica, Shirudo, Comanche Plus, Masai, ...

Product benefits

✓ Outstanding effects

- Rapid knock-down activity and long-lasting control
- Broad spectrum efficacy on all mite growth stages (excellent activity on eggs, larvae, nymphs and adults)
- Translaminar action (excellent access to pests on bottom of leaves)
- Compatible with a range of other products

✓ Anti-Resistance Management

- Use Tebufenpyrad (and other METI-acaricides) just once per season. Follow national labels!
